MAKE CODE, WITH MAKECODE - Question Paper

Server World Online Exam

Subject: MakeCode | Total Questions: 7 | Time: 30 min

A. MULTIPLE CHOICE QUESTIONS

1. Which block is used to display output on the simulator screen in MakeCode?
   a) Print block b) Splash block
   c) Show block d) Output block
   Answer: c) Show block

2. Which loop block runs commands for a fixed number of times?
   a) Forever b) Repeat
   c) If-then d) Set variable
   Answer: b) Repeat

3. A loop placed inside another loop is called a:
   a) Logical loop b) Conditional loop
   c) Nested loop d) Infinite loop
   Answer: c) Nested loop

4. Which operator is used to check if two values are equal?
   a) + b) =
   c) % d) >
   Answer: b) =

5. Which block is used to find the remainder after division?
   a) Division b) Subtraction
   c) Remainder of d) Addition
   Answer: c) Remainder of

B. ASSERTION-REASONING QUESTIONS

1. Assertion (A): The repeat block makes code shorter and easier to understand.
   Reason (R): The repeat block runs commands for a specific number of times.
   a) Both A and R are true and R explains A
   b) Both A and R are true but R does not explain A
   c) A is true but R is false
   d) A is false but R is true
   Answer: a) Both A and R are true and R explains A

2. Assertion (A): A variable stores values that may change during program execution.
   Reason (R): A variable always keeps a fixed value throughout the program.
   a) Both A and R are true and R explains A
   b) Both A and R are true but R does not explain A
   c) A is true but R is false
   d) A is false but R is true
   Answer: c) A is true but R is false
